

# PEM ELECTROLYSER SUB-GASKET SEALING

Perfect gas-tight MEA sealing

H<sub>2</sub>

TO BLOCK

Nitto's sub-gasket ensures a perfect gas-tight seal of the MEA (Membrane Electrode Assembly) in hydrogen fuel cells to prevent disruption of the chemical reaction inside.

reliable  
sealing solution

high durability

perfectly suitable  
for roll to roll  
production

superior  
hydrolisis  
resistance
